

Produktbeschreibung

Advantages: For medium-heavy transport of, for example, shock-sensitive products or on an irregular / unpaved surface. Low noise and vibration damping.

Applications: Excellent shock absorption. Low rolling resistance on uneven floors. Very floor-saving due to the pneumatic tires.

Suitable surface: Almost any surface, both indoors and outdoors. Uneven surfaces such as clinker bricks, damaged floors and obstacles such as thresholds. Unpaved surfaces.

Suitable environment: Dry and not permanently damp. With weak chemicals.
